Methodology / notes

Each row in the table is a value explicitly printed in the named firm's public report or executive summary; no interpolation is performed. The yellow ribbon on the graph is the min--max envelope across firms, and the black line is the cross-firm geometric mean per year. The 2030 column (dashed blue) is a forecast aggregation across the four firms that publish a 2030 outlook; IDC's 2030 enterprise-spending track is omitted to avoid mixing methodologies. Snapshot date: 2026-06-04.

Graph (a): Global Blockchain Market 2020-2030
